

Leica® ASP6025

AUTOMATED VACUUM TISSUE PROCESSOR

The primary focus of the **ASP6025** tissue processor is to ensure all your specimens receive optimal processing. A familiar interface lets you easily set-up runs correctly, and you can be confident that intelligent automation is constantly monitoring and protecting critical reagents.

Simplicity - A straightforward touchscreen interface means, ASP6025 tissue processor operators will find it easy to perform critical operations.

Confidence - With built-in sensors the ASP6025 tissue processor measures the concentration of each alcohol to ensure the optimal sequence.

Protection - The unique ParaLast system reduces paraffin contamination during xylene-free protocols.

TRULY **REFURBISHED** FULLY **WARRANTIED**
