

Tissue-Tek VIP® 6

Vacuum Infiltration Tissue Processor

With a reliable, easy-to-use design, its now possible to take processing to a higher level of efficiency and reliability. Designed for streamlined operation, the VIP® 6 utilizes enhanced reagent features for greater productivity including automatic transfer during processing, an illuminated cabinet that enables observation of reagent levels, and 7 mixing options. Additionally, the VIP® 6 features smart instruments designed to make processing easier than before. Continuous mixing, short cycles, and a heated retort lid take processing to the next level. With VIP® 6, users can introduce a safe, secure, and environmentally friendly system into the lab. Solution manager software safeguards all steps taken during processing to protect tissues and specimens.

TECHNICAL SPECIFICATIONS:

- **Capacity up to 300 Cassettes**
- **Dimensions (W x D x H):** 61 x 63 x 133 cm
- **Weight:** 363.763 lbs.
- **Reagent Reservoirs:** 13 (Including Waste and Cleaning)
- **Bulk Reservoirs:** 2 Fixed (10.8L each)
- **Paraffin Reservoirs:** 4
- **Waste Containers:** 2 (1 Reagent, 1 Paraffin Wax)
- **Reagent Management System:** 3 Reagents including Paraffin Wax
- **Level Sensors:** 4 (150-Cassettes, 300-Cassettes, Cleaning and Overfill)
- **Screen:** High-Resolution LCD Color Touch Screen
